

# Magic Circle Tutorial

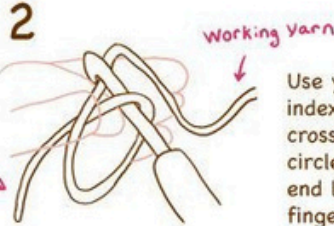

By Crystal Oldfield

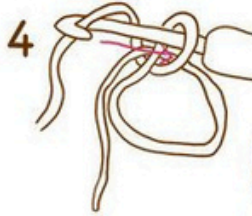

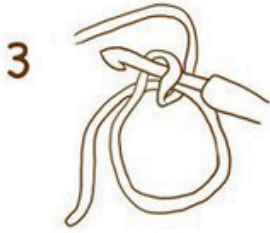

Let's make a Magic Circle!

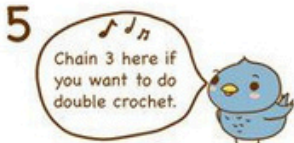

1 Start with the yarn crossed to form a circle.

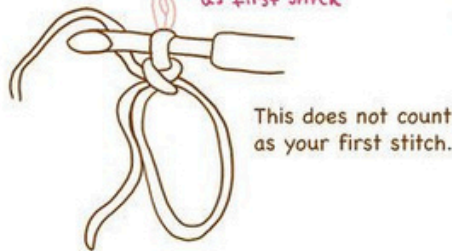

2 Use your thumb and index finger to grip the crossed section of the circle while the working end lays over your other fingers.

3 Pull the working yarn through the circle and then yarn over and pull through the loop on the hook. You have now cast on your yarn to begin working in the round.

5 Chain 3 here if you want to do double crochet. \*optional\* ← Chain 3 counts as first stitch

6 Insert your hook through the circle AND under the tail. Yarn over and pull through.

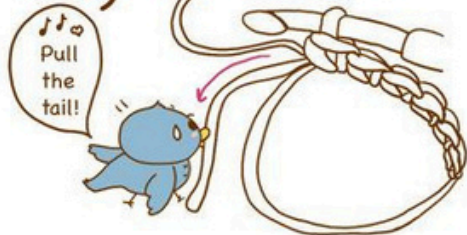

7 Yarn over and pull through both loops on the hook.

8 You've made your first single crochet!

always Crochet around the circle AND the tail!

9 Single crochet 5 more times.

10 It should now look like this! Continue in a spiral, use stitch markers to keep your place. Or slip stitch to the first single crochet and chain appropriate number for rounds.
